Napster

The screenshot shows the Napster v2.0 BETA 7 application window. The interface includes a menu bar (File, Actions, Help), a toolbar with icons for Home, Chat, Library, Search, Hot List, Transfer, Discover, and Help. Below the toolbar are search input fields for Artist (set to 'revolution'), Title, and Max Results (set to 100). There are also dropdown menus for Bitrate, Connection (set to 'AT LEAST' and 'DSL'), and Ping time. A checkbox for 'Ping search results' is checked. The main area displays a table of search results with columns for Filename, Filesize, Bitrate, Freq, Length, User, Connection, and Ping. The results list various files related to 'revolution', including tracks by White Album, Past Masters, Beatles, and Coalesce. At the bottom, there are buttons for 'Get Selected Songs' and 'Add Selected User to Hot List', and a status bar showing 'Online (dwiner): Sharing 368 files.' and 'Currently 871,800 files (3,524 gigabytes) available in 7,119 libraries.'

DMCA

- Digital Millennium Copyright Act
- DRM = Digital Rights Management
- Extends copyright in a new way
- “Intention to circumvent”
- Controls what you can and can’t do with the media and hardware you’ve purchased
(eff.org)

DMCA and Libraries

- imposes rules prohibiting the circumvention of technological protection measures
- sets limitations on copyright infringement liability for online service providers (OSPs)
- expands an existing exemption for making copies of computer programs
- provides a significant updating of the rules and procedures regarding archival preservation
- mandates a study of distance education activities in networked environments
- mandates a study of the effects of anti-circumvention protection rules on the "first sale" doctrine

Economic Arguments

Stealing v. Sharing
